Re: Acceptance of Notice of Intention to Commence Small Mining Operations, Dove Creek Millsite, S/003/047, Box Elder County, Utah

Dear Mr. Ford:

On May 15, 1998, the Division received Utah Building Stone Supply's Notice of Intent concerning their proposed Dove Creek Millsite located in the W1/2 of the NW1/4 of the NW1/4 of Section 12, T12N, R15W, SLBM, Box Elder County, Utah.

We have evaluated this notice under the Small Mining section of our Rules. The information provided in the notice meets the requirements of Rule R647-3 of the 1988 Division of Oil, Gas and Mining Minerals Rules, and Title 40-8, et seq., of the Utah Mined Land Reclamation Act of 1975. By accepting this application, the Division expects the operator to conduct his mining activities in compliance with the Operation and Reclamation Practices of Rule R647-3-107, 108, and 109 (copy enclosed). If the operator believes he cannot comply with these practices/performance standards, then a variance request must be provided to and formally approved by the Division. Variance requests must include all of the information as required under Rule R647-3-110. A variance request is not required for the practices which refer to features which are nonexistent at the project site. No additional information is required from the operator at this time. Please provide us with a final copy of your completeness letter to the operator.

Thank you for your cooperation. If you receive further information or amendments for this operation, please notify us so we will be able to update our files. Please reference our designated file number S/003/047 when forwarding additional information on this project to us.

Sincerely,

Lynn Kunzler
Senior Reclamation Specialist
